

Ebrahim Saboowala Testimonial

(St. Mary's High school)

1. Improved Concentration:

My brother always has vacations during my examination and therefore I used find it very difficult to concentrate during the exams previously. After I came to Express Learning, I can concentrate completely whatever the situation may be.

2. Sharper Memory:

Earlier I used to be afraid of giving exams as my memory was not strong enough. Now my memory has become very sharp and therefore I can give all my examinations without any fear.

3. Increased Confidence:

Previously I was scared that if I tried something new and it failed people will make fun of me. Recently my confidence has shot up to that extent that I took part in a debate competition and lead my team to victory in it.

4. Higher Level of Interest:

Before I thought that History was very boring because it teaches everything about the past and therefore I would hate studying it. I now feel that the past will teach us many things about the future and because of that my interest has shot up to great heights in this subject.

5. Better Mathematics:

My overall understanding of the subject has improved drastically as now I don't get confused in the steps of the problem keeping the base clear in my mind.

6. Richer Language:

Earlier I felt that Marathi is of no use for me and therefore I would try to avoid it. Now I have accepted it and therefore my understanding has developed to a great extent.

7. More Active:

Previously I would just sit at one place and would dislike any physical activity but now it has become the opposite due to my increased activeness. I now find it difficult to spend time without any activity.

8. More Participative:

Earlier I used to have a stage fright and therefore I would not participate in any event where I had to go on stage. After coming to Express Learning, I have become very confident and therefore I participate in all activities in my school.

9. Lesser Bad Mood:

Before I would be jealous with my friends about what they got and would feel frustrated about it but now I have control over my mood and therefore I am thankful for whatever I have.

10. Greater Interpersonal Skills:

I was very selective in making friends and therefore I had very few friends before but now due to my enhanced interpersonal skills, I can make friends with anybody and everybody.

11. Sharper Intelligence:

Before I use to learn answers by heart and would not understand anything in it but now I can understand the concepts in detail and write it in my own words effectively. All this was possible due to my sharper intelligence.

12. Greater Academics:

Earlier I use to get blanked out as soon as I received the exam paper but now that has completely changed. My marks in Marathi have also improved. Earlier I scored 40 out of 80 but recently I scored 56 out 80 which is a great development.

13. Expanded Self-Esteem:

Whenever I made even a small mistake I would feel very guilty from inside previously. Now I feel that it was just a small mistake and it happens. I also feel very good about myself from inside as I remember all my achievements without remembering any of my mistakes.
