

Zahabiya Jamnagarwala Testimonial

(Christ Church)

1. Improved Concentration:

While I study, I can concentrate for a longer period of time. If somebody calls me even then I don't get distracted. This was not happening before.

2. Increased Memory:

I can learn things faster than before which helps me to save a lot of time. I use to take much longer to learn things earlier.

3. Sharper Intelligence:

I had a 5 minute Hindi test and for that without studying I scored good marks. This was a demonstration of my Intelligence which increased after attending this training.

4. Better Mathematics:

I can now remember more formulae of equations. Just by solving the sums once, I can remember it from my memory along with steps of how I had solved it. With the help of this training, my speed of understanding and solving Maths sums has increased tremendously.

5. Richer Languages:

I have improved a lot in my English Language as my thinking power has increased. For example- I can think of 5 different answers of sentence formation. I can also make up a proverb on my own. I can also make up a very good story. All of this was not happening with me before.

6. Faster Reading Speed:

My reading speed has increased a great deal as earlier I could not read fluently and I would stumble if I tried reading faster than normal but now I can read the most difficult pages of the book very fast without stumbling and with proper understanding.

7. Deeper Focus:

I can now focus on things even from a long distance as I can come to know which teacher is coming towards the class from a very far distance which was not possible earlier.

8. Increased Confidence:

I feel much more confident than before as I can answer all the questions in the class in front of everyone and I can even go and speak on the stage without fear but earlier this was never possible. Earlier if I had to speak on stage I would just look at the door and speak but now I look at the audience and maintain eye contact with them.

9. Higher Level of Interest:

Earlier I was never interested in my studies especially in Mathematics and Economics as I use to feel that my teacher is talking nonsense but now my interest level in studies has increased tremendously therefore I feel that whatever my teacher is saying is very interesting.

10. More Active & Participative:

I would never participate in the class even if the teacher gives bonus marks for it but now I can participate in class and earn those extra marks. I have become more active as I now go for practice sessions of football and basketball but earlier I would not go for the practice and directly play the match.

11. Better Academics:

My overall marks have improved to a great extent as I scored 47/80 in Marathi previously but now I have scored 73/80 in the same subject. **I also scored a staggering 92% in my boards this year all thanks to Express Learning.**

12. Higher Creativity:

I can now think much more creatively as earlier I would only know the example given by my teacher but now I can make my own examples after understanding the concept.

13. Better Sports:

I have become better in all the sports I play especially football after coming to this class. My position in the game of football has been promoted from being a midfielder to a striker as my passing and shooting of the ball has improved.

14. Greater Interpersonal Skills:

I can now talk to strangers very freely which was never possible earlier as I was very shy but now everything has changed.

15. Heightened Observation:

I can now pick the hints given to us by our teachers due to my enhanced observation as earlier I would not be able to do it.

16. Expanded Self Esteem:

I feel much better about myself than I use to earlier due to expanded self-esteem.

17. Enhanced Intuition:

My intuition has really developed as I feel that this is going to happen and it happens exactly. For example I felt that one answer which was not in the syllabus would come in the exams and it actually came. Also I had a feeling that all those who will not do the homework will be punished by doing it twice after being taken to the head mistress and this happened exactly the way I thought.

18. Increased Emotional Strength:

I can now control my emotions as my anger level has really gone down compared to what it was earlier.
