

Maria Lokhandwala Testimonial

(Apostolic Carmel High School)

- 1. Improved Concentration:**
I use to find it difficult to concentrate in Science subjects therefore I would get distracted very easily but now I can concentrate and study Science with full concentration.
- 2. Increased Memory:**
Earlier I used to face great difficulty in memorizing the Hindi answers but now I can learn them very fast. Earlier I could not learn more than half a page at one time but I recently learnt two pages together.
- 3. Better Mathematics:**
Recently my mathematics teacher taught us borrowing sums and then asked one of us to solve new sums on the board. Nobody in my class could solve it except me. I went towards the board and solved all the sums correctly
- 4. Sharper Intelligence:**
Whenever my friends asked me a riddle, I would not be able to answer it correctly but recently I noticed that I can now answer all the riddles properly due to my sharper intelligence.
- 5. Richer Language:**
I can now speak and write better in English and Hindi but earlier I would find it very difficult doing that. My mistakes in reading have decreased due to my richer language.
- 6. Faster Reading Speed:**
Earlier it used to take me 10 minutes to read one page. After joining Express Learning, now I can do it in just 5 minutes therefore my reading speed is doubled.
- 7. Increased Confidence:**
Earlier I was afraid of skating and I would feel that I will fall down. Now due to my increased confidence I am not afraid of falling down. I also try learning new sports which I have not played before.
- 8. Deeper Focus:**
I can now focus on what I am studying for one hour at a stretch. Previously I would get distracted in just 20 minutes.
- 9. Higher Level of Interest:**
Earlier I used to hate studying English but after coming to Express Learning I have developed the interest in studying English.
- 10. Quicker Learning:**
I can now learn one answer in just 10 minutes which used to take me 20 minutes before this training.

11. More Active:

Earlier I used to hate going to the madrasa but now due to my increased activeness I wake up early in the morning, revise my studies and then go to the madrasa even if my mother is not in town.

12. Improved Participation:

Earlier I would not participate in any event of the school but recently I participated in an elocution competition and came third in it.

13. Increased Cheerfulness:

Recently I took part in a competition but did not win a prize in it. This did not affect me as I have become extremely cheerful than I was earlier.

14. Higher Creativity:

I can now make a plane, boat and a rocket with paper but earlier I was unable to do it.

15. Better Sports:

I have started running much faster than before as I recently came second in the race which is a great achievement for me. I also came first in long jump where my teacher give me a special prize.

16. Great Interpersonal Skills:

Earlier I would not speak to any of my classmates in school as I had limited friends. Once my skills developed here at Express Learning, I speak to each and every one and therefore I have ended up with more friends.

17. Heightened Observation:

Recently my brother exchanged his bottle with his classmate as both of them were looking very similar; I noticed that the bottle had been exchanged as my brother's bottle had a small dot on it. This was possible only due to my higher observation skills.

18. Expanded Self-Esteem:

Previously I used to feel bad very fast if somebody teased me. Now due to my expanded Self-Esteem I feel good about myself even if somebody says something bad about me.

19. Better Control of Emotions:

I used to get angry very fast before but now I can control my anger.

20. Enhanced Intuition:

One day, I felt that my sports teacher will make us play games only instead of doing yoga and it actually happened in reality.

21. Stress Free Studies:

Before I used to feel very tensed during examinations because of the vast portion. Now I can memorize very fast and therefore I have become tension free during examinations.
