

## Ruqaiyah Vohra Testimonial

**1. Quicker Learning:**

I can learn much faster than before. Earlier it would take me half an hour to learn one long answer and now I can do the same thing in 5-10 minutes. My studies also finish in less time as I can do it faster.

**2. Deeper Focus:**

Whenever I sat to study any subject I use to get distracted very easily but now I can focus on whichever subject I am studying.

**3. Improved Concentration:**

I could not concentrate in studying mathematics earlier as I found it difficult but now I find it easier than before and can concentrate much better.

**4. Increased Memory:**

I can memorize anything I want to remember much faster than before as earlier I would feel that answers are very big and would also take a long time in memorizing it but now I can memorize them very quickly feeling that they are very small answers.

**5. Sharper Intelligence:**

I can now grasp things faster than before and my overall understanding of the subject has improved. I now have a clearer picture of whatever I understand.

**6. Better Mathematics:**

I use to get very confused in solving maths earlier but now I can understand it much better than before. My marks in mathematics have also increased.

**7. Positive Attitude:**

I use to give-up very easily earlier but now I do not give up until and unless I have given my full 100% towards the task.

**8. Richer Language:**

My English language has developed a great deal as earlier I could not speak English very fluently but now I can speak it much more better than before.

**9. Improved Handwriting:**

My handwriting was very bad before but now it has become much better.
