

Bushra Qureshi Testimonial

(The Alexandra Girls Institution)

- 1. Better Studies:**
Now I can study really well and every minute spent is a productive one. Before I use to waste a lot of time.
- 2. Improved Concentration:**
I can now concentrate for a stretch of 90 minutes. Previously I could only concentrate for 30 minutes.
- 3. Sharper Memory:**
I had stopped studying just before the boards. My memory sharpened so much that all that was learnt much before, I could write very well in the boards from my memory without a strong revision.
- 4. Higher Level of Interest in Studies:**
Previously I had to be forced to study but now I am automatically motivated to study.
- 5. Better Maths**
I use to learn the whole maths sum along with the answers. I never use to use my brain to solve the sums, but after coming to Express Learning I become independent in maths.
- 6. Faster Reading Speed:**
My reading speed in Marathi has become much faster. I use to falter before in that.
- 7. Increased Confidence:**
I can stand up and speak in front of others now. I would remain completely silent and would never have the courage to speak in front of others.
- 8. Deeper Focus:**
I would always mug up the lessons, but now my focus has sharpened so much that I can just understand and write in the exams without mugging up.
- 9. Faster Grasping Power:**
I can learn much faster than before. Now I can learn a chapter in 10 minutes as previously the same chapter would take 20 minutes. My speed of learning has doubled.
- 10. Better Marks:**
After coming to Express Learning, there is a great change in my marks. Earlier in my 9th standard I scored only 39%. In my 10th prelims I scored 50%. But in my boards this year I scored a 67% and I am really happy with that score.
- 11. Greater Creativity:**
I started drawing 8 paintings in a book. My attitude before was like why should I work hard and draw anything. All of this has changed. Even my drawing and painting has become better.

12. Heightened Observation:

In my studies I started observing things much closely. With this I could tell what is the next answer going to be. This was not possible before.

13. Expanded Self-Esteem:

Before I use to think that I am not that good and will not be able to achieve things. Express Learning made me realize my worth and I became confident of scoring smoothly in my boards this year.

14. Greater Intuition:

My Intuition has become very strong. Whatever I thought would come from the syllabus in the boards actually came in reality. I could not do this before.

15. Stress Free Studies:

Previously I use to feel a lot of pressure from all sides from my studies. Now I have become completely stress free which helped me very much to sail through my board exams this year.
