

## Husain Rangwala Testimonial

(MSB Educational Institute)

**1. Increased Emotional Control:**

Previously I used to get so angry that I would hit people but now all my negative emotions have come under my control.

**2. Improved Concentration:**

My Concentration level was very low before as I could only concentrate for 7 minutes, but now after this training, I can concentrate for a stretch of 30 minutes.

**3. Higher Level of Confidence:**

My overall level of confidence has increased a lot. Before while doing hifz (memorizing of the quran) my confidence had gone down and I did not feel like doing anything. But now I feel more confident in hifz and that has improved my overall performance as well.

**4. Sharper Memory:**

I can memorize things much faster than before. For example: Previously I use to take 1 hour to memorize 1 page of the quran and now I can memorize the same in only 15 minutes.

**5. Sharper Intelligence:**

I can now write my letters in letter writing much better than before. The marks in letter writing have gone up as I previously scored only 2 or 3 out of 10. Now I score at least 7 out of 10 in that.

**6. Better Academics:**

My marks in maths have improved as I use to score very bad marks previously, but now I score 18 out of 20 in maths.

**7. Greater Interpersonal Skills:**

Before I use to feel scared while talking to others. Now I can talk to them fearlessly with lot of confidence.

**8. Richer Languages:**

My English language has improved much better than before as earlier I would not understand many things in the English subject but now I can understand everything clearly much better than before.

**9. Faster Reading Speed:**

My reading speed has improved drastically as I scan through any book much faster than before and therefore I finish my studies in a much lesser time.

**10. Deeper Focus:**

My overall focus has developed especially in studies as earlier I could not completely focus on one thing and my mind would wander a great deal from one place to another but now I can focus much better than before.

**11. Higher Level of Interest:**

My interest in studies has increased and I do not get bored even after I study for many hours together. I use to really get bored previously.

**12. Quicker Learning:**

My speed of learning has improved a great deal as earlier it would take me as long as 90 minutes to learn one chapter but now I can do it in only 40 minutes.

**13. More Active, Cheerful and Participative:**

Earlier I would not like to play outdoor games as I would feel lazy in doing it but now since I have become more active I love to go out of my house and play outdoor games.

**14. Higher Creativity:** I can now watch different videos of craft and make things accordingly which I could never do before.

**15. Better in Sports:**

My sports has improved overall and therefore whichever game I play now I can play it better than before.

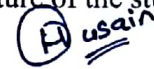

**16. Heightened Observation:**

My observation as improved very much as I can now observe things very minutely and much better than before.

**17. Expanded Self Esteem:**

Earlier I use to feel very low about myself especially when I was memorizing the Holy Quran but now due to my expanded self-esteem I feel very confident about myself in whatever activity I perform.
