

Sakshi Madiyar Testimonial

(Fort Convent)

1. **Faster Reading Speed:** I can now read much faster than before as earlier I would take much longer time to read the same paragraph of my textbook.
2. **Increased Confidence:** I could not speak anything in front of my teachers before but now I can confidently ask my teachers all my doubts and even answer their questions very confidently. I can now even speak very confidently in front of my classmates.
3. **Improved Concentration:** Earlier whenever I sat to study, my mind would wander from one place to another but now I can concentrate much more on what I am studying.
4. **Quicker Learning:** Since I can concentrate much more than before I can learn much faster than what I could earlier. It would take me as long as 10 days to memorize one answer earlier but now I memorize it the same day in few minutes of time.
5. **Increased Memory:** I feel that my brain has become much sharper than before and I can easily memorize things now which would be difficult earlier.
6. **Higher Level of Interest:** Earlier I would not like to study at all but now I feel that I am much more interested towards my studies. I finish most of my learning at my tuitions only due to my higher interest in studies.
7. **Higher Creativity:** I can now do my art and craft much better than before as my creativity has increased a great deal. For example I was given a craft project on Rakshabandhan last year(Make a raakhi) in which I bought a raakhi from the market and submitted it. This year I made my own raakhi and submitted it as I could do things more creatively than before.
8. **Better Mathematics:** I can now solve my sums much faster before as I solved 10 sums in 5 minutes at my tuitions. After that my mom gave me 15 sums to solve and gave me a time limit of one hour but I solved all of them in 5 minutes only due my increased speed.
9. **Richer Language:** I can now speak English and Hindi more fluently than before. I can now even speak malyalam which I could not earlier. All my languages overall have become richer.

10. **Faster Reading Speed:** I can now read faster than before as earlier it would take me much longer to read the same thing.
11. **Deeper Focus:** Whenever I missed school and later copied whatever is given that day from my friend's book, I would know each and every thing of what I have copied. I could even answer questions related to that topic due to my deep focus.
12. **Increased Confidence:** I feel much more confident than before as recently I climbed on the tree to take the ball which had gone on the roof as earlier I would feel really very scared to do the same. I also had a fear of diving in the water therefore I would avoid going inside the water also but now due to my increased confidence I recently dived inside the water in a swimming pool.
13. **Improved Marks:** I used to score very low in my examinations and would not pass in most of the subjects earlier but now I score more than the passing marks in all my subject which is indeed a great development. **I recently scored 89% in my final exams of the 4th standard. Before I use to score around only 55%. My rank in the class is 4th.**
14. **Better at Sports:** I can now swim much better than before which would not be possible earlier.
15. **Greater Interpersonal Skills:** Earlier I would not talk to anybody in my class and would be pretty much in my own world but now I talk to almost all the people I come around.
16. **Increased Self Esteem:** Earlier I was very afraid of giving any examination but now due to my increased self-esteem I can now appear for any examination without fear. Even if I don't know any answer in the examination I would go to the next question which I know without worrying.
17. **Enhanced Intuition:** I felt once that my teacher will give me lot of homework and it actually happened. My intuition has therefore developed better than before.
